

CAMP OOCCHIGEAS

CAMP OCHIGEASX

With your magic map, you'll be magically transported right here to Camp Ooch—and you can see and feel your incredible support in action, including:

The adventure swings and high ropes course—for brave hearted kids to challenge themselves in a safe, loving and supportive environment. And as Matthew says, *“everyone sets their own limits for how high they want to go and everyone cheers you on, no matter what you do!”*

In the **Slaight Arts & Music Centre** kids unleash their creative power! All the fabulous supplies you can imagine, plus dedicated space for the growing music program including a recording studio! Matthew remembers learning to play the ukulele at Ooch!

Gatts' Lodge—rebuilt last year thanks to you! Now fully winterized and expanded to accommodate 50% more campers so that we can keep our promise that no child is ever turned away. The woodshop and dining hall also provide indoor programming space for year-round campers or in poor weather.

The **Med Shed** is where kids receive chemotherapy and other types of care. More rest and isolation rooms for campers, and expanded working space for nurses and doctors means faster and more effective treatment, so kids can get back to being kids.

Do you see **all those animals**? Kids explore the wild side of Camp Ooch and learn about Muskoka wilderness. We've named all the different wildlife you can spot here at Ooch—Justin Beaver, Franklin the turtle, Flicker the deer, Stevie the snake, Chicago the bear and more! Our campers fill out Ranger Reports when they catch a glimpse of our wild friends! And don't forget “Mooch the Moose”, a magic moose statue who comes to life at night and moves around Camp!

Thank you for being a part of our magic map, and for helping kids with cancer experience the Magic of Ooch!
